Please come here to say thanks if you feel relief with suggested/Recommended Med. I had nasal

people develop heat rash in high temperatures, especially if they. The most common form of arthritis comes from wear and tear on the body that occurs with age. Unfortunately, there's not really a way for most people to avoid it. It causes inflammation in the joints, and it can be quite painful, impacting y. Make your own saline solution by dissolving 1/4 tsp. of table salt in 8 oz. of warm water. Stop using a decongestant spray if you have been using it **for** more than two or three days. These sprays can actually make nasal congestion worse after a small amount of time 1 2. A doctor will usually recommend at-home **treatments** to see if the nasal **turbinates** can shrink. Reducing the amount of allergy-causing dust, pet dander, and mold can reduce **allergy** symptoms while. I had nasal surgery (septum and turbinate reduction) earlier last year and forced my self to stop using my CPAP machine. The surgery made my breathing better at day, but not so much at night. I started playing around with herbs, like **magnolia, perilla, reishi** and **cordyceps mushrooms**. Also herbs like nettle which is has anti-histamine effects help. Salt and water helps with many ailments and although it may not completely cure your swollen turbinates, I think it is a step in the right direction for alleviating some of the problem. The key is constantly using the saline solution and following the doctor's orders as to the medications that are right for you. I had nasal surgery (septum and turbinate reduction) earlier last year and forced my self to stop using my CPAP machine. The surgery made my breathing better at day, but not so much at night.
