This will, according to Insta360's own documentation, worsen the water resistance. But it does mean you don't need to (and can't) use the mounting case. A 3D shooting mount is coming soon too. And there's even a camera with a one-inch sensor. It makes the Insta360 One R one of the few rivals to the uncompromising Sony RX0. Let's join together to end the youth vaping epidemic by supporting parents, schools and students. What Moon Is It This Month? A Year-Round Glossary of Named Moons. So where do we end up? The Insta360 can't take quite as good 4K standard action cam footage as the Hero 8 Black or as good 360-degree footage as the GoPro Max. But you can get a One R with both camera modules for less than the cost of a Max. We should also say that the Max's 4K footage easily outclasses the Max's 1080p non-360 video for detail and sharpness. Is this modular action camera the best of all worlds?. Health Professionals for Clean Air and Climate Action. Select your location to view local American Lung Association events and news near you. The real-world result? While both cameras can produce very pleasing looking video, you have a lot more to work with when you take a GoPro's footage into a pro-grade image editing application. For casual use they are not too far apart, but if you're making short films rather than holiday video or bike ride memories, you'll notice the difference. Buy a Insta360 One R in the early days and you may have to wade through some irritating bugs for a while. Insta360 is clearly trying, though. For example, when you flick down from the top of the screen you get to a screen of settings toggles. When we first used the One R, there was no indication of what they did beyond the little icon. Now, when you tap them, a little prompt of their function appears. Talk to our experts at the American Lung Association Lung HelpLine and Tobacco QuitLine. Stahl AG: Release according to Article 40, Section 1 of the WpHG [the German Securities Trading Act] with the objective of Europe-wide distribution. I am a non-smoker, not quite 50 years of age. The ladies in my family for

three generations died of lung cancer. My mother and grandmother smoked, but my great grandmother did not! I was around secondhand smoke quite a bit and was a light smoker in my twenties on and off. Our key findings add to the evidence that a changing climate is making it harder to protect human health. This likely lets the camera enhance its editing and stabilization using much more powerful processing than the camera itself has. It's a clever tactic, but adds another step to the process. A victory for Insta360, then? Not quite. In other, perhaps more difficult areas, the GoPro is the clear winner. The US government is trying to save Christmas from PS5 and RTX 3080 scalpers. Coping with my father's death has been the hardest thing I have ever had to do, I decided to channel my grief into something useful. I am hoping to work with LUNG FORCE to help educate other healthcare workers about this useful tool. Smoking cessation is always best but I also saw firsthand how a very smart, strong and brave man struggled to quit. I believe his treatment outcome could have potentially been better if we found that cancer earlier as the doctor reports it could have been growing slowly for a number of years. If this education can save someone else from this grief? Then the work is well worth it. Best Raspberry Pi for 2021: Which board should you buy?. Editing your 360-degree video is quite similar to the GoPro experience. You choose key points across the footage in the Insta360 app, selecting fields of view at that point. But instead of pinch zooming and rotating to get the desired frame, you choose one of five fields of view and then drag the view around.
